NitWit NewsLetter

A Occasional NewsLetter from rp Visual Solutions

Innovative Visual Displays Tailored To Fit Your Needs

Welcome to our "Occasional Nitwit Newsletter"..... yes, we plan to issue this newsletter when the Mighty Ducks of Anaheim win the Stanley Cup, or the Chicago Bears win the Super Bowl, or the Toronto Blue Jays win the World Series, or months that begin with the letter J, or when the mood hits us, or just on occasion.

What is NitWit NewsLetter

NitWit comes from the words Nit & Wit. Nit is a measurement of light, and Wit is quick knowledge. Therefore, this NewsLetter is dedicated to the Bright and Quick AV Souls.

This is not to be confused with Webster's definition of NitWit as a Scattered Brained Person. Now, onto the News....

rp Visual Solutions Appoints Director of Operations

Many of you have already had contact with Ron Hull, Director of Operations. Hull brings his computer science and accounting knowledge to the efforts of rp Visual Solutions. Randy Pagnan, President of rp Visual Solutions, states, "As the company grows, we are in need of key personnel who can wear many hats, and Ron is able to adapt as necessary to insure our company's growth and our customer intimacy philosophy." Call and speak with Ron today.
