- APPLICATION STORY
- FUTURE EVENTS

March 21, 2007

## **CURVES NEVER LOOKED BETTER**

rp Visual Solutions showed an rps Rear Projection Curved Diffusion Screen at NSCA in Christie's booth.

---

## **REAR PROJECTION GONE BAD**

Come on...we've all seen them...really, really bad rear projection rooms.

We are having a contest to determine the worst rear projection install.

The top three winners will receive a free ipod.

Please email images to [ginger@rpvisuals.com](mailto:ginger@rpvisuals.com). See below for some examples.

---

*NitWit comes from the words Nit & Wit. Nit is a measurement of light, and Wit is quick knowledge.  
Therefore, this newsletter is for Bright and Sharp AV Souls.*

Please let us know how we can be of assistance in designing your next display mount project.  
Our Room Plan Worksheet is available as a PDF or Interactive Online.
